

Complete Platform Operational Guide & Master Step-by-Step Manual

Handcrafted Luxury Ecommerce Platform for Hand-Embroidered Purses, Wool Thread Embroidery, Cozy Crochet Gifts, Home Décor, and Hair Accessories.

1. Executive Overview & Architecture

Piyella is a world-class luxury D2C ecommerce web application built with modern architecture designed for real-time commercial production.

Layer	Technology Stack	Production Purpose
Frontend Framework	Next.js 16 (Turbopack) & React 19	Server Component Rendering & Static Page Optimization
Styling System	Tailwind CSS v4 & Vanilla CSS	Onyx Dark & Warm Cream Light Dual Theme System
Database	Supabase PostgreSQL (Pooler 6543)	Real-Time Data Sync, Catalog, Orders & User Profiles
Authentication	Clerk Authentication (RBAC)	Google OAuth, Email OTP & Admin Protection
Payment Gateway	Razorpay Official API	UPI, Credit Cards, Net Banking & Order Verification
Logistics	Shippo API Engine	Live Shipping Calculator, AWB Tracking & Returns
Hosting & CDN	Vercel Enterprise Platform	Global Edge Network & Automated CI/CD Deployments

2. Administrator Access & Login Process

Follow these exact steps to access the protected Executive Admin Console:

Step 1: Visit the Admin Portal via website shortcut link in the Footer, header profile dropdown, or directly navigate to: <http://localhost:3000/admin>

Step 2: If unauthenticated, you will be redirected to the Sign-In page ([/sign-in](#)).

Step 3: Sign in using your registered admin email **ravibhuva003@gmail.com** or click **Continue with Google**.

Step 4: Assigning Admin Role in Clerk Dashboard (if adding new admin users):

- Open Clerk Dashboard (dashboard.clerk.com) → Users → Select User.
- Edit Public Metadata JSON: { "role": "admin" }.
- Save changes. The account now has full executive permissions across all protected /admin endpoints.

3. Products & Catalog Management

Creating a New Product:

1. Navigate to **Admin Portal** → **Products** → **+ Add New Product** (</admin/products/new>).
2. Enter Product Title (e.g., *Hand-Embroidered Velvet Purse*), Slug, and detailed craft description.
3. Set Regular Price in INR (■) and optional Compare-At Price for sale discount tags.
4. Select Category (e.g., *Embroidery Purses*, *Wool Thread Embroidery*, *Crochet Gifts*, *Home Décor*, *Hair Accessories*).
5. Provide High-Resolution Image URLs or drag-and-drop reference files.
6. Set In-Stock Inventory Quantity and Product Badges (*NEW*, *SALE*, *FEATURED*).
7. Click **Publish Product**. The item instantly syncs live across Homepage Best Sellers, Search, and Category pages.

Editing & Deleting Products:

Go to </admin/products> to modify stock counts, update prices, or remove items with 1-click confirmation.

4. Categories & Collections Management

Creating Custom Categories:

1. Navigate to **Admin Portal** → **Categories** (</admin/categories>).
2. Fill out Category Name (e.g., *Cozy Crochet Gifts*), Slug, and Subtitle description.
3. Enter a high-definition Cover Image URL.
4. Click **+ Create Category**.
5. Created categories immediately appear in the Homepage **Shop by Category** showcase and </collections> directory.

5. Order Fulfillment & Shipping Logistics

Managing Orders:

1. Navigate to **Admin Portal** → **Orders** (</admin/orders>).
2. View incoming customer orders, purchaser contact info, total amount (■), and gift packaging status.
3. Update status in real-time: Pending → Processing → Shipped → Delivered.
4. Click **Generate Invoice PDF** to view printable 24K Gold Foil Invoice ([/invoice/\[orderId\]](/invoice/[orderId])).
5. Click **View Gift Card** for custom gift card messages ([/gift-card/\[orderId\]](/gift-card/[orderId])).
6. Real-time customer tracking is available via [/tracking/\[trackingId\]](/tracking/[trackingId]) with visual progress timeline.

6. Monogramming & Custom Artwork Quotations

PDP Hand-Stitched Monogram Personalizer:

Customers can add custom initials and select thread colors directly on Product Detail Pages (PDP).

Custom Artwork & Embroidery Commission Requests:

1. Customers submit custom requests at </custom-artwork> selecting material (e.g. *24K Gold Leaf Inlay*, *Merino Wool Tapestry*), frame, canvas size, budget tier, and uploading reference photos.
2. Administrators review requests at **Admin Portal** → **Custom Artworks** (</admin/custom-artworks>).
3. Admin sets Custom Price Quote (■), estimated crafting days, artisan assignment, and updates status to *Quotation Sent*.
4. Customers track their artwork quotation and progress in their account dashboard (</account/custom-artworks>).

7. Atelier Cinema & Instagram Reels

1. Public Instagram Reels gallery available at </reels> featuring category filters (*Making Process*, *Behind the Scenes*, *Customer Unboxing*).
2. Clicking any reel opens a full-screen video lightbox player with sound toggle and interactive linked product drawer.
3. Administrators manage videos at </admin/reels> to add video URLs, poster covers, view counts, pin top reels, and link store products.

8. Coupons, Discounts & Banner Announcements

Coupons (</admin/coupons>): Create promo discount codes (e.g. *PIYELLA20*), discount %, and minimum spend limits.

Storefront Banners (</admin/banners>): Update hero headlines, subtitles, and active announcement bar text.

9. Dark & Light Mode Theme System

Piyella includes a dual theme design system with smooth 1-click toggling:

- **Onyx Dark Mode:** Deep #0A0A0A background with gold #D4B87C highlights.
- **Warm Cream Light Mode:** Soft #FAF8F8 background with rich serif typography.
- Users toggle theme using the Sun/Moon button in the top header navbar.

10. Vercel Production Deployment Guide

Follow these 3 simple steps to deploy your GitHub codebase live on Vercel:

Step	Action	Details
Step 1	Import Repository	Go to vercel.com/new → Import ravibhuva003/Piyella
Step 2	Set Environment Keys	Add DATABASE_URL, NEXT_PUBLIC_CLERK_PUBLISHABLE_KEY, CLERK_SECRET_KEY, NEXT_PUBLIC_RAZORPAY_KEY_ID, RAZORPAY_KEY_SECRET, SHIPROCKET_EMAIL

Step 3	Click Deploy	Vercel builds 39 static & dynamic pages and generates your live domain (e.g. https://piyella.vercel.app)
